## WOMEN'S INSTITUTE MONTHLY MEETING, OCTOBER 8

The October meeting of the Grande Prairie Women's Institute will be held in the Elks Hall on Thursday, October 11, at 8:30. The business meeting at 8:30 will be put on by the Women's Musical Club. All lovers of good music are cordially invited.

**EXPLAINS WHY APPLE EXHIBIT IS DECAYING**

The following is clipped from a letter sent by Superintendent W. D. Albert, of the Experimental Station at Beaverdale:

"We are pleased to hear of the interest taken in the exhibits of Beaverdale apples and crabs in the windows of Mr. W. D. Pratt and E. V. Croken. I was disappointed, however, to notice on Thursday evening the 29th, that all the specimens in Mr. Pratt's window were commencing to decay, including the Elberta."

12:15 p.m.—Sunday school and Bible class.

7:30 p.m.—Evening worship. Sermon: "The Future of the Church." Solo: B. B. B. B.

October 10—Twenty-first Anniversary.

**CHRIST CHURCH (ANGELIAN)**

Rector: REV. ERIC W. JACKSON, B.A., L.Th.

Mrs. Helman-Miller, organist.

Trinity Xc.

Sunday school at 10 a.m. Morning Prayer and Holy Communion at 11 a.m.

Evening Prayer at 7:30.

**HARVEST THANKSGIVING**

The annual Harvest Thanksgiving will be held at Christ Church on Sunday next. All who intend to bring gifts for the decoration of the church are asked to have them at the church by noon on Friday.

## HEART VALLEY

In the good old days of 1919, in the month of February, a lone soldier once stepped off of a train at the R.D. & B.C. at Spirit River and gazed around him in a rather confused manner. There was no line up of parked cars outside Charlie Wines' house. He applied to tractor, but horse-power as applied to horses and the hum of life was centered in the very heart of the barn and the garage. The lively horses were filled with energy and days and doing a roaring business, and there was a constant passing back and forth of old-time tractors, weather-beaten and trail hardened, through driving four-ups and traps from Pouce Coupe and Watrous. Also there was a sprinkling of men in high boots and big hats, who had ridden far that day and would ride farther tomorrow. At night there would be the swaying of lanterns and the shout of teamsters, while now and then a team would enter the circle of light as the entrance to the barn; their sweating faces sending up a steaming cloud to be lost in the darkness above.

If one were lucky or unlucky, according to the viewpoint, he might counter the eye of a somewhat sinister looking individual who would give one a cold stare and then to follow. Having reached some requested corner he would produce an equally sinister looking horse and a cracked egg-cup. He would then proceed to angle you with his eyes and his hand in the cracked egg-cup at fifty cents a shot; and you bargained not to be a fool, but he would not yet become so.

Well, it was the intention of this settler to explore the possibilities of farming or hunting in the Heart Valley. He had reached his home in the Heart Valley, the fame of which had reached him even in far distant France. However, through a series of circumstances, he found it was impossible to get out to the Heart Valley for several days, so a couple of days he found him tramping the tie back in the eastern district where he was known as a hunter.

In Watrous and Belloy, each of which places consisted only of a siding and Post Office at that time, he heard rumors of a choice tract of land lying some 15 or 20 miles to the south between Cadotte and Grande Prairie. Heart River, so he set out to investigate.

About fifteen miles south-west of Belloy and on the north side of Cadotte Creek in that flourishing district as known as Peace, and after having travelled at least 25 miles over a zig-zag pack-trail, he came upon a ranchman. This man, Bob Starnatt, had some fifty head of cattle and the whole district in which he lived. And with his closest neighbor at least 15 miles distant.

Having stated the object of his quest, Starnatt very obligingly agreed to take him south of the Cadotte next day and give him an opportunity of judging the country for himself. Accordingly, next morning, a couple of saddle horses, they started out. After much toil, and with horses grudging with their loads, although in temperate stood at a good many places below zero, they succeeded in effecting a crossing of the Cadotte, which at that point seemed a chasm running deep into the bowels of the earth. After crossing the Cadotte and the river, they were about three miles, they rounded a small bluff and came out upon a low ridge from which the land sloped gently away to the south and east for two or three miles to meet the Heart River. An unbroken prairie except for a few scattered poplars and willows.

"This is where I intend to settle," said the soldier. "I will be your nearest neighbor," said Starnatt, "and I will be five miles distant. Your next nearest will be Dan Quill at Cadotte lake, fifteen miles distant. And you, if you intend to get in and out of here? There is no way out northward across the way we have just come. There is some kind of an old hay trail to Quill's and from there south to the river which is about 35 miles distant. And, believe there is some kind of a trail going south-west across the flat Heart to Semath and Grande Prairie. But to Semath will be about 40 miles, and these trails are unpassable in summer."

But youth is optimistic and here the soldier settled. Others soon followed, and to day this district, known as Heart Valley and lying between the Red Heart river on the south-east and Cadotte Creek on the north-west is a flourishing settlement. Its rise to prominence as a grain and cattle district having been as spectacular as that of its sister districts of Westvale and Peoria.

Today, Heart Valley has its own post office and store, a fully modern school house and a good automobile highway connecting it with the outside world. The old-timers, Fred Pearson, H. Meadus, Morrison, Mitchell, Cox McLean, McWhorter, known to all within a radius of fifty miles or more by the familiar name of Scotty, Wm. McLean, Nerman and Pete McLean, have made their money in the West and extensive farms. And although, together with their neighbors and the rest of the world, they are suffering from the present depression, they have not lost the heart of the matter and hundred dollar steers, and are hopeful that such times will come again.

On the 25th of July last, the district suffered a slight shock from the same hurricane

# Bird's Cash and Carry Grocery

Ripe Tomatoes, per basket . . . . .25  
Concord Grapes, per basket . . . . .25

Iodized Blocks, each . . . . .1.10

## "QUALITY AND LOW PRICES"

At the 19th Hole

Quite a number took advantage of the lovely day and swelled the crowd at the links on Sunday. The golfers had members were much evidence throughout the day.

The men's championship tournament has been played down to the final bracket. The golfers will be played on Sunday next, thirty-six holes, weather permitting.

\*\*\*\*\*

In the game between Black and Robertson played in the morning, the former lost by five up and four to go. There were no record-breaking scores made. Robertson turning in a card of 49. "Harry" is quite pleased with himself to think he had him down at one stage of the game.

Robertson of Wembley played his game in the eighth bracket with Duncan, and lost by the same amount as the former couple. Robertson was not playing his usual game. He was driving off the tee in fine style, but his game from there on was very erratic, especially when it came to playing his reliable shot. On several occasions he outdrew Duncan from the tee, but when the latter played his second, when he seemed to dub his trying to get distance. So the old saying still holds good: It doesn't matter how you take your eye off the ball.

After a light and a rest, Robertson took on his game with Butcher, to see who would go into the final. It looked pretty hopeless for the latter player, being six down at the sixth, but "John" pulled himself together and started to play golf. The ninth hole ended with Robertson four up. The match ended at the 14th green.

The Sissons-Duncan game ended in a win for the latter. After the first round "Jack" was only one down, but had Duncan guessing all the time. Sissons was playing his usual steady game, never off the middle of the fairway, and his maul and putter were deadly. In the second round "Bobby" settled down to a steady game, winning the first two holes, making it three up at the third green. The next hole was won by Duncan with a par 4 and the fifth with a 5, winning the match.

A rather funny coincidence happened in that all the matches played in the eighth ended at the fifth hole.

It is quite noticeable that the eight paragraphs on the backs of our club members' cards. It is not good etiquette to signal players to go through, and when they are about to putt, it is best to put them straight to play again. There should always be a "stand" between each match. Players should not keep off on hole three until the players about to play have left the green. Up to the present time we have been fortunate that players have not been on green three, but eventually, if this is continued, some of them will be sorry.

Pro. "Bobby" Stevenson says he will have the greens in his hands after the final game on Sunday, and he said there is no reason why a record round for the season can't be made, so as to reduce our par for the course to next year. "John" Robertson says he is going to do a forty on Sunday, but Duncan says he will be quite satisfied if he can stay around the 43 mark.

In a game with D. J. W. Oke on Monday afternoon, Pro. "Bobby" Stevenson turned in a card of 40, breaking his 41 mark several times. He was around with his usual 50 mark. "D. J. W." claims he will be under the 40 mark by the end of the season. "Bobby" card:

On Saturday last the Kerr "Chalmers" Button changed hands again. Mr. W. T. Haines won from Mrs. C. C. Fawcett in a very close game.

## Seventy-Eight Attend Teach. Convention

(Continued from Page One)

It was said that he had a request to make, and that was that when the teachers would be in the district, they would be a little ray of sunshine. It was said that the teachers would be a little ray of sunshine. It was said that the teachers would be a little ray of sunshine. It was said that the teachers would be a little ray of sunshine.

## Largely Attended Banquet, Etc.

(Continued from Page One)

Social affairs of the club, which were under the supervision of the committee, were most successful. The evening's affair indicates how our social affairs are conducted, and how the club members are enjoying themselves.

The honor roll was then read by C. E. Thompson, who was called upon to propose the toast to the golfers. He said that he had never played golf, but he had heard that it was a very good game, and he was going to try it.

E. Thompson, who was called upon to propose the toast to the golfers, stated that he had never played golf, but he had heard that it was a very good game, and he was going to try it.

Pro. "Bobby" Stevenson was referred to by the chairman as one who had done a great deal for golf. There were cries of "Bobby" and "Stevenson" as he was called upon to propose the toast to the golfers.

On Saturday last the Kerr "Chalmers" Button changed hands again. Mr. W. T. Haines won from Mrs. C. C. Fawcett in a very close game.

These in charge of the musical festival said Mr. Galt was a very successful musician, and he was going to give a concert in the city.

Inspector D. W. Oke spoke briefly, and he said that the purpose of the convention was to afford a little break to the teachers, and to give them a chance to relax.

The other purpose, said Mr. Oke, was to allow the teachers to meet and discuss the various problems of the school. He said that the teachers would be a little ray of sunshine.

Monday afternoon

Mr. Steele-Smith gave a very interesting speech, and he said that the teachers would be a little ray of sunshine.

Mr. Steele-Smith gave a very interesting speech, and he said that the teachers would be a little ray of sunshine.

Following the good things to eat, Mr. MacLachlan, who was in the chair, called upon Mr. Dunlop.

Mr. Dunlop said that he had been called upon to make an important decision. Which was the most beautiful, the north side or the south side of the Peace or the south. It was a case of a north in which the fear to tread. So the speaker was non-committal.

He said that one of the pleasures of coming to the convention was the opportunity which it afforded of meeting so many graduates of the Edmonton Normal School. The next step after leaving the university was to enter the normal school.

Another pleasant experience was when the teachers returned to the summer school. When he returned he would be asked many questions by the principal of the Normal about the graduates teaching here.

Mr. Jackson briefly reviewed the history of a school in India of which he was a graduate.

Someone once said that teachers were the worst paid and most respected of any people in the world. He said that he was a teacher, and he was proud of his profession.

Mr. Chappell answered questions that were raised by the teachers. He said that extra work was not done, but that the teachers were a part of the school.

Inspector Oke gave a talk on English, emphasizing the importance of the study of the English language. He said that the English language was the key to the world.

The following officers were then elected: President, George Miller; Vice-President, George Miller; Secretary, George Miller; Treasurer, George Miller.

Where the Race Originated, and When and How Changes Occurred. The speaker said that there was no final answer to the question of the origin of the human race.

The speaker said that there was no final answer to the question of the origin of the human race.

The speaker said that there was no final answer to the question of the origin of the human race.
